QUICKSILVER LIMITED WARRANTY INFORMATION

Mercury Precision, SmartCraft and Quicksilver Parts and Accessories Limited Warranty

Limited Warranty Statements

This Mercury Precision, SmartCraft and Quicksilver Parts and Accessories Limited Warranty (the "Limited Warranty") applies to Mercury Precision, SmartCraft and Quicksilver Parts and Accessories and Mercury Racing propellers (the "Parts and Accessories") purchased in the EMEA from an authorized Mercury dealer or distributor. Terms and conditions may vary in other regions of the world. For product purchased in EMEA, "Mercury Marine" is Brunswick Marine in EMEA., LLC, with its registered office at Parc Industriel de Petit-Rechain, Avenue Mercury 8, 48900 Verviers, Belgium. Contact e-mail address: BME.service@mercmarine.com. This Limited Warranty gives you specific rights, and you may also have other legal rights that vary from country to country. For the avoidance of doubt, this limited warranty does not adversely affect any of your statutory rights to the legal guarantee (as applicable).

What is Covered

Mercury Marine warrants each new or factory rebuilt Parts and Accessories to be free from defects in material and workmanship during the period described following.

Duration of Coverage

This limited warranty provides coverage for one year from either the date on which the product is first sold to a retail purchaser by an authorized Mercury dealer or distributor, or the date on which the product is first put into service, whichever occurs first.

Except when used for racing or other competitive activity, Parts and Accessories installed on Mercury Racing products that have product warranty duration of less than one year, carry a limited warranty coverage for a period of time equal to, and not greater than, the duration of the limited warranty originally provided with the parent product. The repair or replacement of parts, or the performance of service under this warranty, does not extend the life of this warranty beyond its original expiration date. Unexpired warranty coverage can be transferred to a subsequent purchaser upon proper re-registration of the product.

Conditions That Must be Met in Order to Obtain Warranty Coverage

Warranty coverage is available only to retail purchasers that purchase from a dealer or distributor authorized by Mercury Marine to distribute the product in the country in which the sale occurred. Routine maintenance outlined in the Operation and Maintenance Manual must be timely performed in order to maintain warranty coverage. Mercury Marine reserves the right to make warranty coverage contingent upon proof of proper maintenance.

What Mercury Will Do

Mercury Marine's sole and exclusive obligation under this warranty is limited to, at Mercury Marine's option, repairing a defective part, replacing such part or parts with new or refunding the purchase price of the Mercury product. Mercury reserves the right to improve or modify products from time to time without assuming an obligation to modify products previously manufactured.

How to Obtain Warranty Coverage

The purchaser must provide Mercury Marine with a reasonable opportunity to repair, and reasonable access to the product for warranty service. Warranty claims shall be made by delivering the product for inspection to a Mercury dealer or distributor authorized to service the product. If the purchaser cannot deliver the product to an authorized Mercury dealer or distributor, written notice must be given to Mercury Marine. We will then arrange for the inspection and any covered repair. The purchaser shall pay for all related transportation charges and travel time. If the service provided is not covered by this warranty, the purchaser shall pay for all related labor, material, and any other expenses associated with that service. The purchaser shall not, unless requested by Mercury Marine, ship the product or parts of the product directly to Mercury Marine. The original purchase receipt establishes the warranty period and must be presented to the dealer or distributor at the time warranty service is requested in order to obtain coverage.

What is Not Covered

This limited warranty does not cover routine maintenance items, tune ups, adjustments, normal wear, damage caused by abuse, abnormal use, double lab finished propellers, use of a propeller or gear ratio that does not allow the engine to run in its recommended wide open throttle RPM range (refer to the Operation and Maintenance Manual), operation of the product in a manner inconsistent with the recommended operation/duty cycle section of the Operation and Maintenance Manual, exceeding the horsepower limitations for the product as listed on the Mercury Racing propeller or in the Quicksilver Precision/Mercury Racing Accessory Guide, neglect, accident, submersion, improper installation (proper installation specifications are explained in the installation instructions for the product), improper service, use of an accessory or part not manufactured or sold by Mercury Marine, jet pump impellers and liners, operation with fuels, oils or lubricants which are not suitable for use with the product (refer to the Operation and Maintenance Manual), alteration or removal of parts, water entering the engine through the fuel intake, air intake or exhaust system, or damage to the product from insufficient cooling water caused by blockage of the cooling system by a foreign body, running the engine out of water, mounting the engine too high on the transom, or running the boat with the engine trimmed out too far. Use of the product for racing or other competitive activity, or operating with a racing type lower unit, at any point, even by a prior owner of the product voids the warranty.

Mercury Precision, SmartCraft and Quicksilver Parts and Accessories that are used for any purpose for which they are not intended (outside anticipated marine applications) are excluded from coverage under this warranty statement. Expenses related to haul–out, launch, towing, storage, telephone, rental, inconvenience, slip fees, insurance coverage, loan payments, loss of time, loss of income, or any other type of incidental or consequential damages are not covered by this warranty. Also, expenses associated with the removal and/or replacement of boat partitions or material caused by boat design for access to the product are not covered by this warranty.

No individual or entity, including authorized Mercury dealers and distributors, has been given authority by Mercury Marine to make any affirmation, representation or warranty regarding the product, other than those contained in this limited warranty, and if made, shall not be enforceable against Mercury Marine. For additional information regarding events and circumstances covered by this warranty, and those that are not, see the Warranty Coverage section of the Operation and Maintenance Manual, incorporated by reference into this warranty

Disclaimers and Limitations

THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY DISCLAIMED. TO THE EXTENT THAT THEY CANNOT BE DISCLAIMED, THE IMPLIED WARRANTIES ARE LIMITED IN DURATION TO THE LIFE OF THE EXPRESS WARRANTY. INCIDENTAL AND CONSEQUENTIAL DAMAGES ARE EXCLUDED FROM COVERAGE UNDER THIS WARRANTY. SOME COUNTRIES DO NOT ALLOW FOR THE DISCLAIMERS, LIMITATIONS AND EXCLUSIONS IDENTIFIED ABOVE, AS A RESULT, THEY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER LEGAL RIGHTS WHICH VARY FROM COUNTRY TO COUNTRY.

MLS GASKETS

Quicksilver MLS premium gaskets are designed with 3 layers of stainless steel for maximum strength, improved sealing, ability to rebound, and corrosion resistance. The outer layers of the gasket are embossed and coated on both sides with a Viton rubber material designed to meet the demands of a variety of harsh sealing environments, load conditions, and surface finishes.

The center or shim section is comprised of an uncoated stainless steel layer, which can be varied to accommodate multiple thickness requirements of the gasket. By design the gasket promotes an even torque load across the sealing surface allowing for measurable reduced bore distortion. Use of Quicksilver gaskets provide easy application and long service life.

Multi Layer Steel Gasket Features:

- Three layer 301 grade stainless steel construction – Superior strength and highly corrosion resistant
- Embossed outer layers are Viton® coated – Meets the demands of a variety of harsh sealing environments, load conditions and surface finishes
- Design requires less clamp load – Allowing for less distortion and a more uniform distribution of load across the sealing surface
- Customizable – The center layer can be varied to accommodate multiple thickness requirements
- No sealants or re-torque required – Saves time, money and resources

QUICKSILVER GREASES

Quicksilver Grease Product Line Simplified

Quicksilver greases have gone through a makeover. The product line has been simplified to eliminate confusion about which grease to use in what application. The line has been reduced from six types of grease to three. Below is a summary of the consolidation:

2-4-C Marine Grease – No change
Needle Bearing Assembly Grease – Now called Assembly Grease. The formula has not changed but the packaging has. Instead of 8 oz tubes, the product now comes in 1lb tubs.
Special 101 – Replaced by 2-4-C Marine Grease
U-Joint and Gimbal Bearing Lubricant – Replaced by Extreme Grease
Anti-Corrosion Grease - Replaced by Extreme Grease
Engine Coupler/Spline Grease - Replaced by Extreme Grease
